

SANDPIPER

Sandpiper is a gunter-rigged Farrington 25 shoal draft version, having a draft of 3 feet, and was built by Kingsley Farrington in Norwich in 1988.

She is powered by her original BMW 9hp inboard diesel engine mounted in front of the mast.

Sandpiper was purchased in 2013 and underwent a radical internal and external refurbishment which included conversion from 3 berths to two and reconfiguring of both the galley and heads.

RCC handicap is -9%.
