18<sup>th</sup> January 2024

Dear Liz,

The lives of seriously injured and ill people across East Anglia are being saved today because of you and your fantastic fundraising. Thanks to your donations, friends and family will receive the expert critical care they need in an emergency, support with their recovery and, as well as this, people in the community will be able to learn the life-saving skills of how to deliver CPR – you really are making a difference.

Thank you so much for the donation of £500 brought into Helimed House during your base visit. East Anglian Air Ambulance (EAAA) could not save lives without you. Please pass on our heartfelt thanks to the members of the East Anglian Cruising Club who contributed to your events held in 2023 in any way. Together you really will save lives. Please find attached your Certificate in recognition of this amount.

Your donation will support patients like Jonathan, who suffered a catastrophic injury whilst working on a local farm. His wife Wendy said, “We know that without the enhanced skills of the air ambulance team that day Jonathan wouldn’t have made it to hospital.” Like you, Jonathan and Wendy also know how much work goes into organising events to fundraise for the air ambulance that saved his life, having organised their own charity ball event a year after the accident.

Or, your donation could also go towards supporting patients and their families who have received the care of EAAA. The Aftercare service supports a patient’s recovery and provides an understanding first-hand of what happened during their accident or medical emergency. The specialist team supports patients like Harry who recently met the crew who saved his life after a motorcycle accident. Harry said, “...listening to (Dr) Jeremy and (Critical Care Paramedic) Nigel saying what they had to do to me before I could be taken to hospital was unbelievable.”

We can only be there for patients like Jonathan and Harry thanks to your fundraising. Thank you for choosing to give your support and donations to the patients of East Anglian Air Ambulance – we really appreciate you.
